Dear Mom and Dad,

I enjoyed talking to you the other night and am glad you had a good time at the ocean. Your letter was very descriptive and certainly made me wish I was there! We have had a lot of rain but this afternoon was dry and felt like Fall. The grass grew so fast after the rain that I found it difficult to mow on Sunday. I may have to mow again before the weekend. At least the lawn mower starts easily and runs well.

The cat recovered Sunday afternoon and seems to be back to normal. Perhaps it is due to Christian Science. I believe it is growing out of the kitten stage since it is not so frantic as at first. The cat likes to explore the basement but comes upstairs with a lot of dust.

Sandi called last night to tell me she has found a good house to buy as a rental investment. We will each buy a half share. This need not affect the possibility of our buying your house with Mary. I talked to her about it the other night. They are still uncertain about Mike's future plans. If they can't invest at this time it still would be possible for you to sell one-half the house to me.

I have enclosed a couple of articles of interest. Please show the one about Snoqualmie to Mary as we told her about it the other night. The photograph looks down exactly where we had our picnic.

Love,

Jim & Vickie
